Call for Community Project Proposals

The Directorate of Community Engagement has planned to implement *community problem solving projects* in line with the New Guideline. In this budget year, attention will be given to community and/or stakeholders priority agenda. This is, therefore, inviting interested professionals to submit their proposal.

Important Notes:

- **Project Objective:** It should aim to solve community problems.
- **Project area:** Within the catchment of the University.
- **Budget Limit:** As per the new CE Guideline.
- **Duration of the project:** Depend on the type of the project.

- **Number of Investigators:** As per the GL and the contribution of each member shall be clearly specified.
- **Place of submission:** At the respective and/or relevant Community Engagement Coordination Office.
- **Format:** The project proposal should follow standard scientific format: title, background, objectives, implementation approaches, work plan, and budget breakdown. (See the CE Guideline for the details).
- **Deadline for Submission:** 20 August 2020.
- **NB:** The investigator must indicate the link between the original research and the project proposal.
